

TEACHING AND EXAMINATION REGULATIONS (OER)

**(from Article 7.13 of the Higher Education and
Research Act)**

MASTER'S DEGREE PROGRAMME MARINE TECHNOLOGY

DELFT UNIVERSITY OF TECHNOLOGY

Table of contents

Paragraph 1	General	(art. 1-2)
Paragraph 2	Admission and prior education	(art. 3-4)
Paragraph 3	Content and composition of the programme	(art. 5-12)
Paragraph 4	Registration for and withdrawal from	(art. 13-15)
Paragraph 5	Examinations	(art. 16-24)
Paragraph 6	Studying with a disability	(art. 25)
Paragraph 7	Study support and (binding) recommendation on the continuation of studies	(art. 26-27)
Paragraph 8	Final Provisions	(art. 28-32)
Appendixes		

Paragraph 1 - General

Article 1 – Applicability of the regulations

1. These regulations apply to the teaching and examinations of the Master's programme Marine Technology, hereinafter referred to as 'the programme'.
2. The programme is provided under the responsibility of the faculty Mechanical, Marine and Materials Engineering of Delft University of Technology, hereinafter referred to as the faculty.

Article 2 - Concepts

1. The following concepts apply in this Regulation:
 - a. first academic year: the first period in the programme with a study load of 60 credits, as specified in Article 7.8b Section 8 of the Act;
 - b. degree audit: the test, in which, in accordance with Article 7.10 of the Act, the Board of Examiners determines whether all examinations in the subjects of the degree programme have been successfully completed;
 - c. negative binding recommendation on continuation of studies: the rejection linked to the recommendation on the continuation of studies at the end of the first year of enrolment as specified in Article 7.8b Section 3, first sentence;
 - d. programme: the Master's degree programme, as stipulated in Article 7.3a, Section 1, Subsection a in the Act;
 - e. Osiris: the education information system;
 - f. practical exercise: subject of component of a subject aimed at the acquisition of particular skills. The following can be understood as practical exercises:
 - writing a thesis,
 - conducting a project or experimental design,
 - carrying out a project or a design/research assignment,
 - completing an internship,
 - participating in field work or an excursion,
 - conducting tests and experiments, or
 - participating in other educational activities that are considered essential and that are aimed at acquiring particular skills;
 - g. bridging programme: a deficiency programme aimed at moving up to a Master's degree programme, as stipulated in Article 7.30e or Article 7.57i of the Act;
 - h. student: a person enrolled at Delft University of Technology in order to receive education and take the examinations and the degree audit in the degree programme;
 - i. credit: credit in accordance with the European Credit Transfer System (ECTS); one credit equals a study load of 28 hours;
 - j. study guide: the digital guide for the degree programme containing specific information on the subjects included in the degree programme (www.studiegids.tudelft.nl);
 - k. examination: investigation of the student's knowledge, insight and skills with regard to a subject, along with the assessment of that investigation;
 - l. track: major, as stipulated in Article 7.13, Section 2, Subsection b of the Act;
 - m. subject: a unit of study within the programme, as stipulated in Article 7.3, Sections 2 and 3 of the Act with which an examination is associated;
 - n. working day: Monday through Friday, with the exception of recognised holidays and the collective closure days;
 - o. Act: the Higher Education and Scientific Research Act (abbreviated to WHW), Bulletin of Acts and Decrees 593 and any amendments since its introduction.
2. The other concepts in these regulations are used in the sense in which they appear in the Act.
3. In these regulations, the term 'examination' also refers to 'interim examination', with the exception of Articles 19, 22 and 25.

Paragraph 2 - Admission and prior education

Article 3- Admission to the Master's degree programme (Art. 7.30b WHW)

ONLY FOR MASTER'S DEGREE PROGRAMMES

BoS advisory powers; SC advisory powers 2018-2019 (amendment RIB)

1. Individuals holding one of the following degrees have access to the education of the Master's degree programme in Marine Technology on the condition that all of the stated requirements have been met.

a. Specific university Bachelor's degree

- Bachelor's degree in Marine Technology, Mechanical Engineering and Aerospace Engineering.

b. Other university Bachelor's degree (not including those listed in Subsection a)

The following applies to this category:

Successful completion of the stated bridging programme for admission to the Master's degree programme:

- University Bachelor's degree Civil Engineering

Bridging programme to be followed:

COURSE CODE	COURSE NAME	ECTS
MT2430	Weerstand, voortstuwing en aandrijving 2	6
MT2431	Geometrie en stabiliteit 2	6
MT2433	Scheepsbewegingen	6

A bridging programme is completed when all courses are passed with a minimum final mark 6.0

c. Higher professional education degree

The following applies to this category:

Successful completion of the stated bridging programme for admission to the Master's degree programme and, if applicable, the language requirement

- higher professional education degree in Marine Technology and in Hogere Zeevaartschool (HZS).

Bridging programme to be followed:

COURSE CODE	COURSE NAME	ECTS
MT2432	Sterkteleer van schepen	6
MT2433	Scheepsbewegingen	6
WB2630	Mechanica	6
WI1708TH1	Analyse 1 TH	3
WI1708TH2	Analyse 2 TH	3
WI1708TH3	Analyse 3 TH	3
WI1807TH1	Lineaire Algebra 1 TH	3
WI1909TH	Differentiaalvergelijkingen TH	3
WI2032TH	Numerieke Wiskunde + practicum	3

Additional course for HZS

MT2434	2e Integratie Project	12
--------	-----------------------	----

A bridging programme is completed when all courses are passed with a minimum final mark 6.0

d. Foreign degree

This category is subject to the general selection requirements of Delft University of Technology with regard to prior foreign education, based on a Cumulative Grade Point Average of at least 75% of the maximum number of points that could be earned, included in the table of countries (see website) and meeting the requirements for satisfactory linguistic mastery of English, as stated in the appendix.

2. Access to the education of the Master's degree programme in Marine Technology is open to individuals who have demonstrated to the admissions committee that they possess knowledge, insight and skills at the level of the Bachelor's degree mentioned Subsections 1a, or of a university Bachelor's degree, in addition to the further requirements mentioned in Subsections 1b and 1c.

Article 4 - University entrance examination (Art. 7.29 Section 2 WHW)

ONLY FOR BACHELOR'S PROGRAMMES

BoS advisory powers

Paragraph 3 - Content and composition of the programme

Article 5 - Goal of the programme (Art. 7.13 Section 2, Subsection c WHW)

BoS right of approval

1. The programme is intended to educate students to earn a Master of Science degree in Marine Technology, providing them with such a level of knowledge, insight and skills in the area of Marine Technology, that graduates can fulfil positions on the labour market at the Master's level.
2. Graduates must also meet the specific final attainment levels for each degree programme, as defined in the appendix.

Article 6 - Track (Art. 7.13 Section 2, Subsection b WHW)

BoStudies right of approval

The Master's degree programme has the following tracks, with the stated content in the appendix:

- Design, Production and Operation
- Science

Article 7 - Composition of the programme and degree audits

(Art. 7.13 Section 2, Subsections a, e and g of the WHW); BoS advisory powers (a); right of approval (e and g)

(Art. 7.13 Section 2, Subsection x WHW; FSCI right of approval, BoS advisory powers)

1. The programme includes the Master's degree audit, with a study load of 120 credits.
2. Students following two simultaneous Master's degree programmes at TU Delft must earn at least 60 additional unique credits in addition to a complete Master's degree programme of 120 credits.
3. Subjects that were part of the Bachelor's degree programme that qualified a student for admission to the Master's degree programme may not be included in the Master's degree programme. If a compulsory component has already been completed in the aforementioned Bachelor's degree programme, the Board of Examiners will designate an alternative subject. If an elective module of the degree programme has already been completed in the aforementioned Bachelor's degree programme, the student will select an alternative elective module.
4. The Master's degree audit is concluded with a final test or assignment. This test or assignment demonstrates that the student possesses and is able to apply the knowledge, insight and skills acquired in the degree programme.
5. The degree programme is described in the appendix, along with the subjects, including the study load, number of contact hours and form of examination of each subject, as well as the programming of the examination and the language.
6. The actual design of the education is elaborated in greater detail in the study guide.

Article 8 - Form of the programme (Art. (7.13 Section 2, Subsection i WHW))
FSC right of approval, BoS advisory powers

The programme is offered exclusively as full-time.

Article 9 - Language
FSC right of approval, BoS advisory powers

The teaching is in English, and the examinations are administered in English.

Article 10 – Honours Programme
FSC right of approval, BoS advisory powers

1. Based on the criteria referred to in the Bachelor's Honours Programme, students will be selected and admitted to the Master's Honours Programme by the Honours Coordinator.
2. The Master's Honours Programme comprises at least 20 credits.
 - a. At least five credits must be completed in the institution-wide component of the Master's Honours Programme: the subject 'Critical Reflection on Technology', UD2010, and
 - b. At least 15 credits must be completed in the faculty component of the Master's Honours Programme, the composition of which (including its content and options) is described in the Honours Programme.
3. All students selected for participation in the Honours Programme must submit their options for the faculty component for approval to the Honours Coordinator.
4. The Board of Examiners will be responsible for assessing whether all the requirements of the Honours Programme have been met.
5. Any student who has successfully completed the Honours Programme will be awarded a certificate signed by the chair of the Board of Examiners and the Rector Magnificus.

Article 11 – (Compulsory) participation in the programme (Art. 7.13 Section 2, Subsection t WHW)
FSC right of approval, BoS advisory powers

1. All students are expected to participate actively in the subjects for which they are registered.
2. If necessary, there will be an obligation to participate in practical exercises, with a view to admission to the related examination, without prejudice to the authority of the Board of Examiners to grant an exemption from this obligation, with or without imposing a substitute requirement.
3. Any supplementary obligations are described by component in the course description.

Article 12 - Programme evaluation (Art. 7.13 Section 2, Subsection a1 WHW)
BoS right of approval

1. The Director of Studies is responsible for the evaluation of the education.
2. The manner in which the education in the programme is evaluated is documented in the Quality Assurance Manual of 3mE, which is submitted for advice to the Faculty Student Council and the Board of Studies.
3. The Director of Studies informs the Board of Studies concerning the outcomes of the evaluation, the intended adjustments based on these outcomes and the effects of the actual adjustments.

Paragraph 4 – Registration for and withdrawal from examinations

Article 13 - Registration for written examinations

FSC right of approval; BoS advisory powers

1. Registration to participate in a written examination is compulsory and is done by entering the requested data into Osiris no later than 14 calendar days before the examination. Students receive examination tickets by email as confirmation of their registration.
2. Students who have not registered within the term specified in Section 1 may request registration for that examination after this term until no later than three calendar days before the examination by entering the requested data into Osiris. The request will be honoured providing that places are available in the room or rooms where the examination is scheduled to take place. Students receive examination tickets by email as confirmation of their registration.
3. In the event of circumstances beyond a student's control resulting in the student being unable to register for an examination, the Board of Examiners may nevertheless permit the student to participate in the examination.
4. Students who have not registered for the examination and are therefore not included on the list of examinees can report on the day of the examination to the invigilator beginning 15 minutes before the start of the examination until the actual start. They will be admitted to the examination room, in the order that they reported to the invigilator, 30 minutes after the start of the examination, if sufficient places are available. The loss of 30 minutes of examination time cannot be compensated. Students who have been granted late access to the examination will be added to the list of examinees. The student participates in the examination subject to the validation of entitlement to participate in the examination.
5. In the situation described in the previous section, if it is found that a student was not entitled to participate in the examination, the examination work will be deemed invalid, it will not be marked and it will not count towards a result. The student may subsequently submit an appeal to the Board of Examiners, accompanied by reasons, requesting that the examination work that has been deemed invalid be declared valid and to have it assessed. The Board of Examiners will approve the request only in case of extenuating circumstances.

Article 14 - Registration for other examinations

FSC right of approval; BoS advisory powers

1. Registration for participation in an examination other than a written examination is compulsory, and it is done in the manner and within the term that is stated in the study guide for the relevant examination.
2. In special cases, the Board of Examiners make exceptions to the registration term stated in Section 1, but only in favour of the student.
3. Students who have not registered on time will not be allowed to participate in the examination. The Board of Examiners can nevertheless admit a student to the examination, but only in case of special circumstances.
4. In the event of unauthorised participation in an examination, the Board of Examiners may declare the result invalid.

Article 15 - Withdrawal from examinations
FSC right of approval; BoS advisory powers

1. Students can withdraw from an examination through Osiris up to three calendar days before the examination.
2. Any student who has withdrawn from an examination should re-register on a subsequent occasion, in accordance with the provisions of Articles 13 and 14.

Paragraph 5 – Examinations

Article 16 - Form of the examinations and the manner of testing in general (Art. 7.13 Section 2, Subsections h and I WHW)
FSC right of approval, BoS advisory powers

1. Examinations (oral, written or otherwise) are taken in the manner described in the appendix.
2. The appendix contains a description of the moments at which and the numbers of times that examinations can be taken, along with their frequency, without prejudice to the provisions of these regulations concerning written and oral examinations.
3. A student may participate in an examination for a subject no more than twice in one academic year.
4. In special cases, the Board of Examiners will deviate from the provisions of this Article in favour of the student.

Article 17 – Times and number of written examinations (Art. 7.13 Section 2, Subsection j WHW)
FSC right of approval, BoS advisory powers

1. Two opportunities to take written examinations will be offered each academic year:
 - at the end of the teaching period in which the subject is taught, and
 - in the fifth week or at the end of the next teaching period or during the resit period in the months of July and August.
2. An annual timetable is issued detailing when written examinations may be taken, and it is published before the start of the relevant teaching period.
3. Contrary to the provisions in Section 1, the opportunity to take the written examination for a subject that is not taught in a certain academic year must be given at least once in that year.

Article 18 - Oral examinations (Art. 7.13 Section 2, Subsection n WHW)
FSC right of approval, BoS advisory powers

1. For oral examinations, no more than one student shall be tested at a time, unless determined otherwise by the examiner.
2. Oral examinations shall be public, except in special cases in which the Board of Examiners has decided otherwise, or if the student has filed an objection to the publicity of the examination.
3. The oral examination is administered by at least two examiners.

Article 19 - Determination and announcement of results (Art. 7.13 Section 2, Subsection o WHW)
FSC right of approval, BoS advisory powers

1. The examiner determines the result of a written examination as quickly as possible but by no later than 15 working days after the examination. The results of written interim examinations shall be announced no later than five working days before the next written interim examination.
2. The examiner determines the result of an oral examination immediately after it is administered and issues the student with a written statement of this result.

3. The examiner records the results of the assessment of a practical exercise as quickly as possible, but no later than 15 working days after the completion of the practical exercise at the designated time. In Osiris, the result will be dated on the date of completion of the practical exercise. With regard to a series of practical exercises in which the knowledge acquired in a previous practical exercise is important to the subsequent practical exercise, the result of the previous practical exercise shall be announced before the subsequent practical exercise. If this is not possible, the examiner shall schedule a timely discussion of the previous practical exercise.
4. The examiner is responsible for the registration and publication of the results in Osiris, with observance of the student's privacy. When the result of an examination is announced, the student is informed about the right of perusal as stipulated in Article 20 as well as about the possibility of appealing to the Examinations Appeals Board.
5. Contrary to the previous provisions, results achieved in the resit period in August shall be registered and published no later than the last working day of the week following the examination week in August.
6. If special circumstances prevent the examiner from registering the results on time, the examiner will report this to the Board of Examiners, accompanied by reasons, and notify the students and student administration as quickly as possible.

Article 20 - Right to inspect results (Art. 7.13 Section 2, Subsection p WHW)
FSC right of approval, BoS advisory powers

1. Upon request, students will have the right to inspect their assessed work during a period of at least 20 working days after the announcement of the results of a written examination or the assessment of a practical exercise. Students intending to appeal against the assessment of their work will be issued with a copy of the assessed work.
2. During the period mentioned in Section 1, all students who have participated in the examination can become acquainted with the questions and assignments of the relevant examination, as well as with the standards that form the basis of the assessment.
3. The examiner can determine that the inspection or cognizance intended in Sections 1 and 2 will take place at a pre-established place and at a pre-established time.
4. Students proving that they were unable to appear at such an established place and time because of circumstances outside of their control will be offered another possibility, if possible within the period mentioned in Section 1. The place and times mentioned in the first sentence will be made known in good time.

Article 21 - Discussion of the results of examinations (Art. 7.13 Section 2, Subsection q WHW)
FSC right of approval, BoS advisory powers

1. Students who have taken a written examination or who have received the assessment of a practical exercise can ask the relevant examiner for a discussion of the results during a period of 20 working days after the announcement of the results. The discussion will take place within a reasonable period, at a place and time to be determined by the examiner.
2. At the request of the student or at the initiative of the examiner, a discussion justifying the assessment will take place between the examiner and the student as soon as possible after the announcement of the result of an oral examination.
3. If a collective discussion is organised by the examiner, students may submit requests as referred to in the last section only if they have been present at the collective discussion and have motivated their requests, or if they were unable to be present at the collective discussion because of circumstances outside their control.
4. The Board of Examiners may allow deviation from the provisions in Sections 2 and 3.

Article 22 - Period of validity for examinations (Art. 7.13 Section 2, Subsection k, Art. 7.10, Section 4 WHW).

FSC Council right of approval, BoS advisory powers

1. The period of validity of the results of an examination is indefinite. The dean can restrict the period of validity of a successfully completed examination only if the knowledge or insight that was examined has become outdated or if the skills that were examined have become outdated.
2. In cases involving a limited period of validity based on the first section, the period of validity shall be extended at least by the duration of the acknowledged delay in studies, based on the TU Delft Profiling Fund Scheme.
3. In individual cases involving special circumstances, the Board of Examiners can extend periods of validity that have been limited based on the first section or further extend periods of validity that have been extended based on the second section.
4. If a subject consists of interim examinations, the period of validity of the interim examination for which no credits are assigned shall be restricted to the academic year where the results have been obtained.

Article 23 - Exemption from an examination or obligation to participate in a practical exercise

(Art. 7.13 Section 2, Subsection r WHW)

FSC right of approval, BoS advisory powers

1. After having obtained recommendations from the relevant examiner, the Board of Examiners may grant exemptions to students:
 - a. who have successfully completed an examination or degree audit in a system of higher education within or outside the Netherlands that corresponds to the examination for which the exemption has been requested in terms of content and level, or
 - b. who demonstrate that they possess sufficient knowledge and skills that have been acquired outside the system of higher education.
2. After having obtained recommendations from the relevant examiner, the Board of Examiners may grant exemption from the requirement to participate in a practical exercise with a view to admission to the related examination, possibly subject to alternative requirements.

Article 24 - Periods and frequency of degree audits (Art. 7.13 Section 2 WHW)

FSC right of approval, BoS advisory powers

In principle, the opportunity to take the Master's degree audit will be offered once each month. The dates for the meetings of the Board of Examiners shall be published before the beginning of the academic year.

Paragraph 6 – Studying with a disability

Article 25 - Adjustments to the benefit of students with disabilities or chronic illnesses

(Art. 7.13 Section 2, Subsection m WHW)

FSC right of approval, BoS advisory powers

1. Upon a written and substantiated request to that effect, students with disabilities or chronic illnesses may be eligible for adjustments in teaching and examinations. These adjustments are coordinated to the situations of the students as much as possible, but they may not alter the quality or level of difficulty of a subject or the study programme. Facilities to be provided may include modifications to the form or duration of examinations and/or practical exercises to suit individual situations or the provision of practical aids.
2. Requests as mentioned in Section 1 must be accompanied by a recent statement from a physician or psychologist or, in cases involving dyslexia, from a testing office registered with BIG, NIP or NVO. If possible, this statement should include an estimate of the extent to which the condition is impeding the student's academic progress.

3. Decisions concerning requests for adjustments relating to educational facilities are taken by the Dean or by the Director of Studies on the Dean's behalf. Decisions concerning adjustments relating to examinations are taken by the Board of Examiners.

4. Adjustments to examinations can involve the following or other matters:

- form (e.g. replacing a written test with an oral test or vice versa, testing the required material in the form of interim examinations or granting exemptions to the attendance requirement);
- timing (e.g. additional time for an examination, wider staggering of examinations across the examination period, granting exemptions to admission requirements or extending the period within which a component must be completed);
- aids permitted during testing (e.g. English-Dutch dictionaries for students with dyslexia);
- location (taking the examination in a separate, low-stimulus space).

5. Adjustments in educational facilities could include:

- providing modified furniture in teaching and examination spaces;
- providing special equipment (e.g. magnification or Braille equipment for students with visual impairments and blindness or loop systems and individual equipment for students with hearing impairments and deafness);
- providing more accessible course material;
- providing special computer facilities (e.g. speech-recognition or speech-synthesising software);
- providing a rest area.

Paragraph 7 - Study support and (binding) recommendation on the continuation of studies

Article 26 – Study support and Monitoring of student progress (Art. 7.13 Section 2, Subsection u WHW)

FSC right of approval, BoS advisory powers

1. The Dean is responsible for providing individual study supervision to students registered for the degree programme, partly for their orientation towards potential study options within and outside the degree programme. He will also ensure that effective support and supervision is provided to students in making choices related to their studies.
2. The examination and study programme applying to each student is documented in Osiris.
3. The Student Administration is responsible for ensuring that all students are able to review and check their results in the Osiris student-information system.

Article 27 – (Negative) binding recommendation on the continuation of studies; ONLY FOR BACHELOR'S DEGREE PROGRAMMES

Paragraph 8- Final provisions

Article 28 - Conflicts with the regulations

In the case of conflict between provisions in the study guide or other document concerning the relevant teaching and examination education and study programme and these regulations, the provisions of these regulations shall take precedence.

Article 29 - Amendments to the regulations

1. Amendments to these regulations are adopted separately by the Dean.
2. Amendments that are applicable to the current academic year will be made only if they would not reasonably damage the interests of students.
3. Amendments to these regulations may not lead to disadvantageous changes to any decisions that have been made with regard to individual students.

Article 30 - Transitional measures

1. If the composition of the degree programme undergoes substantive changes, transitional measures will be established and published through the Dean.
2. These transitional measures shall include at least the following:
 - a. an arrangement regarding exemptions that may be obtained based on examinations that have already been passed;
 - b. the period during which the transitional arrangement shall be valid.
3. Students shall follow the degree programme as it applied or applies during the first academic year of their enrolment, unless components of the programme are no longer offered. In such cases, students must transfer according to the applicable transitional measures. Deviations require the approval of the Board of Examiners. Before submitting a request to this end, the student must have first obtained recommendations from an academic counsellor.
4. If a subject within a degree programme is cancelled, four additional opportunities for taking the examination in this subject shall be offered after it has been taught for the last time: the examination at the end of the teaching of the subject, a resit in the same academic year and two resits in the following academic year.

Article 31 - Announcement

1. The Dean is responsible for ensuring a suitable announcement of these regulations and any amendments to them.
2. In any case, the Teaching and Examination Regulations are to be posted on the programme's website.

Article 32 - Entry into force

These regulations shall enter into force on 1 September 2018.

Adopted by the Dean of the faculty on 20 August 2018

APPENDIX to Art. 3 of the Model TER (for Master's degree programmes)

Language level for individuals holding a higher professional education degree (c)

The English language, through the successful completion of one of the following tests:

- A TOEFL iBT (Test of English as a Foreign Language internet-Based Test) with an overall band score of at least 90, or
- an IELTS (academic version) with an overall Band score of at least 6.5, or
- a proof of completion of the 'Certificate of Proficiency in English' (CPE) or the 'Certificate in Advanced English' (CAE), both of the University of Cambridge

Certificates must have been completed successfully before the start of the bridging programme.

The following candidates shall be exempted from the requirement to pass an English language test:

- Nationals from the USA, UK, Ireland, Australia, New Zealand or Canada
- Applicants with a Dutch Pre-university (VWO) certificate
- Applicants who have obtained a higher professional education degree in an English-language programme.

Language level for individuals holding a foreign degree (d)

The English language, through the successful completion of one of the following tests:

- A TOEFL iBT (Test of English as a Foreign Language internet-Based Test) with an overall band score of at least 90 and a minimum score of 21 for each section, or
- an IELTS (academic version) with an overall Band score of at least 6.5 and a minimum score of 6.0 for each section, or
- a proof of completion of the 'Certificate of Proficiency in English' (CPE) or the 'Certificate in Advanced English' (CAE), both of the University of Cambridge

Certificates older than two years shall not be accepted.

The following candidates shall be exempted from the requirement to pass an English language test:

- Nationals from the USA, UK, Ireland, Australia, New Zealand or Canada
- Applicants who have obtained a Bachelor's degree in one of the countries mentioned.

APPENDIX to Article 5 of the Model TER

‘Final Qualifications MSc Marine Technology’

3TU-criteria
1. Competent in the scientific discipline Marine Technology A graduate in Marine Technology is able to... 1A. ...apply advanced physics and mathematics in maritime systems. 1B. ...design, carry out and evaluate experiments.
2. Competent in doing research A graduate in Marine Technology is able to... 2A. ...study a topic by critically selecting relevant scientific literature. 2B. ...write a scientific report about own research. 2C. ...analyse maritime systems at various levels of abstraction. 2D. ...generate knowledge within the discipline of Marine Technology.
3. Competent in designing A graduate in Marine Technology is able to... 3A. ...take into account the impact on other disciplines of Marine Technology. 3B. ...systematically design complex parts of a ship and its systems. 3C. ...generate innovative contributions to the discipline of Marine Technology.
4. A scientific approach A graduate in Marine Technology is able to... 4A. ...apply paradigms, methods and tools to (re)design parts of a ship and its systems. 4B. ...manage own scientific research independently. 4C. ...analyse problems and use modelling, simulation, design and integration towards solutions.
5. Basic intellectual skills A graduate in Marine Technology is able to... 5A. ...analyse and solve technological problems in a systematic way. 5B. ...plan and execute research and design in changing circumstances. 5C. ...integrate knowledge in an R&D project, considering ambiguity, incompleteness and limitations. 5D. ...identify and acquire lacking expertise. 5E. ...critically reflect on own knowledge, skills and attitude. 5F. ...remain professionally competent. 5G. ...take a standpoint with regard to a scientific argument within the research area.
6. Competent in operating and communicating A graduate in Marine Technology is able to... 6A. ...work both independently and in multidisciplinary teams. 6B. ...present and report in good English. 6C. ...explain and defend outcomes from the research area to academia and industry, to specialists and laymen.
7. Considering the temporal and social context A graduate in Marine Technology is able to... 7A. ...evaluate and assess the technological, ethical and societal impact of own work. 7B. ...act responsibly with regard to sustainability, economy and social welfare.

MT54035	Thesis Project, Solution generation and validation + defense	35	x.x.x.x	1	nvt	Project	Wellens, Pruyn
Homologation Course MT							
MT44045	Introduction to Ship and Offshore Hydromechanics	3	4.0.0.0	1	1,2	Written exam	Peter Wellens
A. DESIGN, PRODUCTION AND OPERATION - coordinator Jeroen Pruyn							
Obligatory Courses MT-DPO							
MT44065	Risk in Maritime Asset & Project Management	5	4.0.0.0	1	1,2	Project/Dig.exam	Coenen, Godjevac
ME44205	Quantitative Methods for Logistics	6	2.2.0.0	1	2, 3	Project/Written exam	Duinkerken
Star Elective Courses MT-DPO (Pick at least one)							
MT44050	Fundamentals of Marine Engineering	5	0.0.4.0	3	3,4	Written exam	De Vos
ME44310	Advanced Operations and Production Management	6	0.0.2.2	3	3	Practical/report	Beelaerts van Blokland
MT44095	Design of Advanced Marine Vehicles	5	4.0.0.0	1	1	Practical/Written exam	Frouws
MT44070	Shipping Management	5	0.0.4.0	3	3	Practical/report	Frouws
Recommended Elective Courses MT-DPO							
ET4117	Electrical Machines and Drives						
ME43020	Materials for Highly Loaded Structures	5					
ME44305	Delft Systems and Simulation Approach	5					
ME45100	Fuel Cell Systems	3					
MOT1421	Economic Foundations	5					
MT44005	Marine Propulsion System	3	0.0.0.3	4	4,5	Written exam	De Vos, Terwisga
MT44010	Non-metallic materials in Marine Structures	5	0.4.0.0	2	2,3	Oral exam/Practical	Pahlavan
MT44025	Numerical Ship Hydrodynamics	5	0.0.4.0	3	3,4	Practical/report	Ido Akkerman
MT44060	Advanced Course in Resistance and Propulsion	4	0.0.4.0	3	-	Practical/report	Terwisga
MT44085	Ultimate Strength of Marine Structures	5	0.4.0.0	2	--	Oral exam/Practical	Walters
MT44095	Design of Advanced Marine Vehicles	5	4.0.0.0	1	1	Written exam	Frouws
MT44100	Diesel engines A	5	0.0.4.0	3	3,4	Practical/Written exam	Klaas Visser
MT44105	Diesel engines B	5	0.0.0.4	4	4,5	Written exam	Klaas Visser
MT54005	Individual Research Assignment for MT-DPO	15	x.x.x.x	--		Project	Pruyn, Frouws, Hopman, De Vos
SC42020	Modern Robotics	5					
SC42060	Modelling and Nonlinear Systems Theorie	4					
WM0636SET	Sustainable Energy Economics	3					
WM0320TU	Ethics and Engineering	3					
WM1301TU	Ethics of Transportation	3					
WM0375TU	Risk Ethics	3					
WM0353TU	Climate Ethics	3					

SCIENCE

MASTER MARINE TECHNOLOGY 2018-2019 - director Sape Miedema

COURSE CODE	COURSE NAME	ECTS	CONTACT HOURS		EXAMINATION PERIOD	ASSESSMENT METHOD	RESPONSIBLE LECTURER
			PER PERIOD	START			
Obligatory Courses MT							
MT44000	Mechatronics in MT	5	4.0.4.0	1,3	1,3	Practical/report	Godjevac
MT44015	Attending student colloquia	0	x.x.x.x	1	nvt	Attending	Pruyn
MT44020	Motions & Loading of Structures in Waves	5	0.4.4.0	2	2, 3, 4	Written exam	Wellens
MT44030	Torsion and shear in Marine Structures	5	4.0.0.0	1	1,2	Written exam	Kaminski, Pahlavan
MT44035	Design of Complex Specials	5	0.0.0.4	4	4	Practical/report	Kana, Hopman
MT44040	Maritime Finance, Business and Law	5	0.12.0.0	2	2	Practical/report	Pruyn
MT54010	Thesis Project, Analysis and Literature Research	10	x.x.x.x	1	nvt	Project	Wellens, Pruyn
MT54035	Thesis Project, Solution generation and validation + defense	35	x.x.x.x	1	nvt	Project	Wellens, Pruyn
Homologation Course MT							
MT44045	Introduction to Ship and Offshore Hydromechanics	3	4.0.0.0	1	1,2	Written exam	Peter Wellens
B. SCIENCE - coordinator Peter Wellens							
Obligatory Courses MT-SC							
MT44025	Numerical Ship Hydrodynamics	5	0.0.4.0	3	3,4	Project	Akkerman
MT44090	Fluid - Structure Interaction in Marine Structures	5	4.0.0.0	1	-	Project	Den Besten
Star Elective Courses MT-SC (Pick at least one)							
ME45040	Advanced fluid dynamics	5	4.4.0.0	1	1,2	Written exam	Tam
OE44085	Fatigue strength of marine structures	5	0.0.4.0	3	3,4	Oral exam/Practical	Den Besten
Recommended Elective Courses MT-SC							
AE4136	CFD 2: Discretization Techniques	2					
CIE4325	Ocean Waves	6					
ME45155	Modelling of thermo- and hydrodynamic systems	5					
ME46050	Advanced finite element methods	4					
MT44010	Non-metallic materials in Marine Structures	5	0.4.0.0	2	2,3	Oral exam/Practical	Pahlavan
MT44060	Advanced Course in Resistance and Propulsion	4	0.0.4.0	3	-	Project	Terwisga
MT44080	Hydromechanics of special ship types	4	0.0.0.4	4	4,5	Project	Van 't Veer
MT44085	Ultimate Strength of Marine Structures	5	0.4.0.0	2	--	Oral exam/Practical	Walters
MT54000	Individual Research Assignment for MT-Sc	15	-	1	-	Project	Wellens
WM0320TU	Ethics and Engineering	3					
WM1301TU	Ethics of Transportation	3					
WM0375TU	Risk Ethics	3					
WM0353TU	Climate Ethics	3
